

SCVAL Meet #2: Crystal Preview Meet Sheet

October 6, 2026

Important notes about the Crystal Springs Course!

There have been intense discussions in the past among the local community, almost closing the course for high school cross-country racing. All athletes and parents should be **EXTREMELY** aware and considerate of our impact on local residents:

- **Drivers, NEVER double park while picking up or dropping off athletes, even for an instant!** Continue driving until there is a place at the curb to drop off athletes. We are cross-country runners; we can walk a few extra blocks to avoid blocking traffic!
- Athletes, never walk across lawns, congregate on the streets, and please don't just hang out...get from the car to the course as quickly, quietly, and efficiently as possible.
- When you do see a resident, smile and wave and say, 'Good afternoon! We love being here, thank you!' And if a resident makes a negative remark, don't be negative back, just say 'well we love being here, we appreciate your consideration, I hope this is not too much of a bother!' Be positive, that's all we can do!

About the Crystal Preview meet

This meet is your introduction to the Crystal Springs course. Our League Championship meet will be here four weeks from now. Crystal is one of the best cross-country courses anywhere, in my opinion—and *many* people agree with me. Even without the running, Crystal is a beautiful place to be, and the course is a classic cross-country challenge.

Run the first mile smart, you can finish with your heart. Crystal has a 'trap' for new and experienced runners alike. The first half-mile is a fast downhill. Many unwary runners fly down the first half mile, then turn around and grind back up...and one mile into the race, they feel like burnt toast! **This first section of the course is not that bad if you race intelligently.** During this first race at Crystal, I suggest you run conservatively on that first-mile loop—try treating that first loop as a medium- to high-effort tempo run. We don't want to finish the first loop and feel like we are smashed—if the next two miles are just about survival you won't learn as much about how you should race on this course. Once you are back up to the top and near our tent and can see the path along the fence line, start pushing your pace (if you have not seen the course before, don't worry; this will be obvious on race day). **The top of the first loop is a great place to make a move with your heart, if you have been racing with your brain up to that point.** You should collect plenty of roadkill. I believe the perfect race for the Crystal Preview will be one where you return and say, *"That was a great race. I left it all out there and was really moving the last five minutes, and I think I could have been a little more aggressive that first mile."* That was a good race, and you are even more ready for a PR at SCVALs in a month. A Preview where you are finishing strong and fast and feel confident will be your perfect preparation for League Finals!

"Many people interpret the discomfort of growth as a reason to stop"—Martin Seligman

Preparation:

- ❖ **You are responsible for your transportation to the race.**
- ❖ Eat a healthy lunch. You do not want a full stomach, but you do not want to be on empty either. What did you try at Baylands; did that work for you? You should be well-fueled but not uncomfortable. Write down what you eat for lunch in your running or race logs; if this lunch feels good to you when you run, you may want to try this again. If your stomach did not feel so great, or if you felt weak or hungry, maybe you want to try something different next time.
- ❖ Bring a snack for after your race.
- ❖ Don't forget your uniform. (All of it!) **Bring pins for your bib.**
- ❖ It is projected to be a warm day, but it can get cool later in the day at Crystal.
- ❖ Be prepared, always have **3 large trash bags**: 1-for your dirty, dusty, sweaty, wet, muddy clothes; 2-for your track bag if it is rainy or muddy; 3-emergency rain poncho.

Warm-Up:

Find your warm-up leaders, one hour before the race and stick with them! Be at the starting line 10 minutes before the start.

Finishing:

- We will be **chip-timing** the Crystal Preview. Here are instructions on how to wear your chip: <https://lynbrooksports.prepcaltrack.com/ATHLETICS/XC/wearchip.pdf> Return your chip to the holder after your race. I suggest you put your chip on your show as soon as you arrive so you are not rushing just before your race.
- After finishing, **clear the finish area right away** – keep jogging until you exit the safety area that is kept open for athletes in real distress – then go back and cheer on your teammates who are still running.

Some Important Crystal Springs rules (for parents and athletes):

- No dogs or other animals.
- **No bicycles.**
- No throwing of anything: rocks, balls, Frisbees, freshmen...
- All trash must be put in green boxes or hauled away (**DO NOT use Hallmark Park trash containers**). Bring recyclables home.
- **Drivers, please NEVER double park even to 'just for a second while the kids jump out'. Please drive down the block and find a place where you can pull over and park without blocking the road.**
- Stay off all yards, do not yell in the neighborhoods, be polite and say hello and thank the residents for letting us use this facility.
- **Do not warm up on the course itself (there are warm up areas).**
- Do not warm up or cool down on Hallmark Drive.

SCORE GOOD KARMA POINTS

- | |
|---|
| <ul style="list-style-type: none">• Thank at least one volunteer or official at every race—we can't race without their efforts. The coaches from Mt. View and Lynbrook are running this meet.• Say good luck to one competitor and your teammates before the race.• Congratulate the person finishing in front of you, and compliment the person behind you.• Thank the parent who drives you—<u>especially</u> if the driver is <u>your</u> parent! |
|---|

“Grit is living life like it is a marathon, not a sprint.”

—Angela Duckworth

The Crystal Springs Course:

2.95 Miles of dirt and rolling hills. This is what you train on! **Crystal Springs is a fabulous course, it is OUR course, Monta Vista OWNS Crystal Springs!** We are lucky we can run here every year.

Some Things to Think About While Running Crystal Springs:

- ❖ We will run our league championships and CCS championships at Crystal so this is a good time to try out race strategies. Think about where to push and try out that idea. If it feels good, do that again. If that does not feel great, try something else next time.
- ❖ The race at Crystal really starts when you climb back from the first loop and re-cross the starting line. That is just over one mile into the race, you have a little less than two miles left to run. At the top of the hill after loop 1, you shake your legs up and say OK, get to work! Stand up straight, get your shoulders loose, get to work. You have two miles and you can pass a whole lot of people.
- ❖ Try starting your finishing push with 800m to go, at the start of the 3rd and last loop. This is where personal record and championship pushes are made...and then kick it up another notch at your ‘sprint point’, a minute plus or minus out from the finish.
- ❖ If you pass a teammate, try encouraging him or her. Say, ‘come with me’ or ‘let’s do this together.’ See if you can help a teammate find something more inside.
- ❖ Crystal Springs is a great course for Monta Vista. We train on hills like this, and harder hills than these, every week in Fremont Older and Stevens Canyon. When you are running with other competitors, believe that you are as strong or stronger.

Believe. This is our kind of race

Schedule:

2:45 PM League Meeting All coaches and all athletes will report to the area in front of the timer’s building for a presentation on Crystal Springs rules and regulations.

3:15 PM Boys Varsity 2 Wave 1: Advait, Aidan C-K, Jonah, Kavyansh, Aditya P, Eli, Jimin, Sihoon, Peter, Shawn (10 in Wave 1) **Wave 2/3:16 One Minute After: Harry, Agastya, Max, Vikram, Gary, Jiwoo, Rohan, Raghuram please note** you are runners in Wave 2. For safety reasons, only 10 runners from each school will start in the first wave, everyone else will start 1 minute later. Please remember to start with this group to ensure you are timed properly.

3:45 PM F/S Boys Aadit, Soma, Callen, Fahad, Jayden, Leon, Aditya S, Oliver, Kai, Shouki (10 max)

4:15 PM Varsity 2 Girls Alex P, Sophia, Eva, Kaitlyn, Vishakha, Medha, Caroline, Zeynep, Fiona, Jolena, Rachel, Victoria, Luna, Yoyo

4:45 PM Varsity Boys Tarun, Sam, Constantine, Akshat, Rishabh, Ritik, Ethan, Takumi, Aiden W, Kento

5:15 PM Varsity Girls Miranda, Taylor, Naomi, Melinda, Myra, Katherine, Alex Q
